

Installation

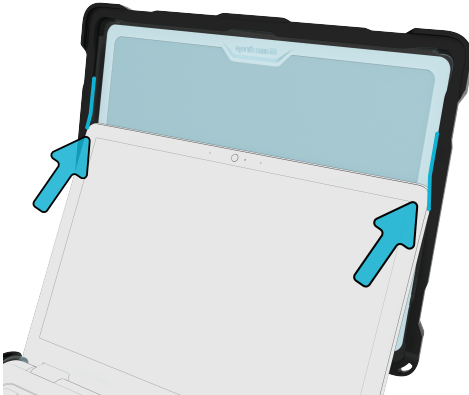

- 1** Align the device keyboard under the bottom case front clips on both sides.

- 2** Pop in device ensuring side clips engage.

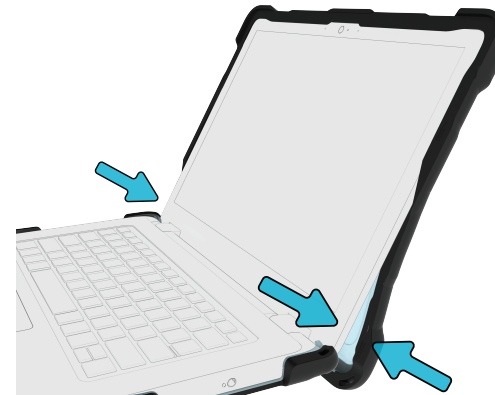

- 3** Carefully press the rear corner clips to snap onto the keyboard.

- 4** Align the device screen under the top case's slide clips on both sides.

- 5** Slide the top case down, to secure the screen behind the side clips, until the device reaches the case's top edge

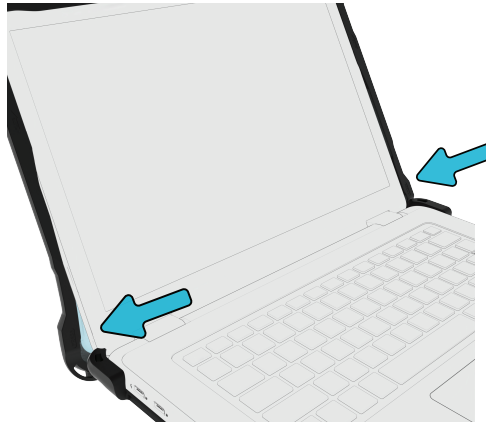

- 6** Press the lower side clips over the device, with pressure from both sides, to snap into place securely.

Removal

Critical!

Follow steps 1 and 2 in order.

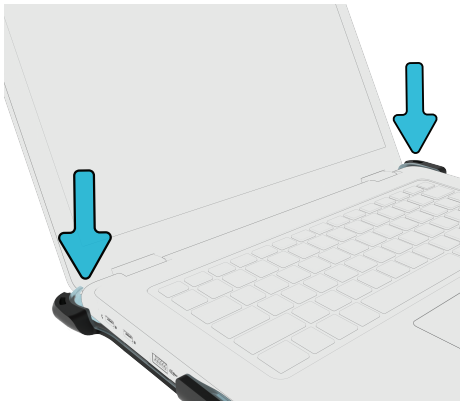

Failure to do so may result in damage to device.

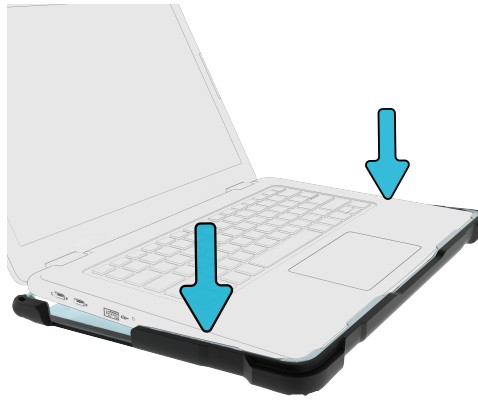

- 1 Push the lower left and right side clips outward to release the bottom of the top case from the device.

- 2 Start sliding the top case off by pushing up with your fingers on the bottom corners.

- 3 Gently push the rear clips down to unhook from the device.

- 4 Push the left and right side clips down past the device, one side at a time, to release it from the bottom case.
